

FLX-CV

FLORAEX™ Food-Grade Processing Aid

PRO

1. Before Use

- Make sure the tank, drum, spray system, or application area is clean before preparation.
- Use clean potable water only.
- Prepare the dilution according to the approved ratio.
- Wear suitable PPE before handling the concentrated product.

2. Dilution Ratio

Concentrated Product	Water	Final Ready-To-Use Solution
1 L	20 L	21 L
2 L	40 L	110 L
10 L	200 L	210 L

3. Application Method

- Immersion tank
- Rotating drum
- Spray system
- Processing line shower/nozzle system

Make sure the solution reaches all surfaces of the raw material evenly.

For fruits and vegetables, rinse thoroughly with potable water after the contact time.

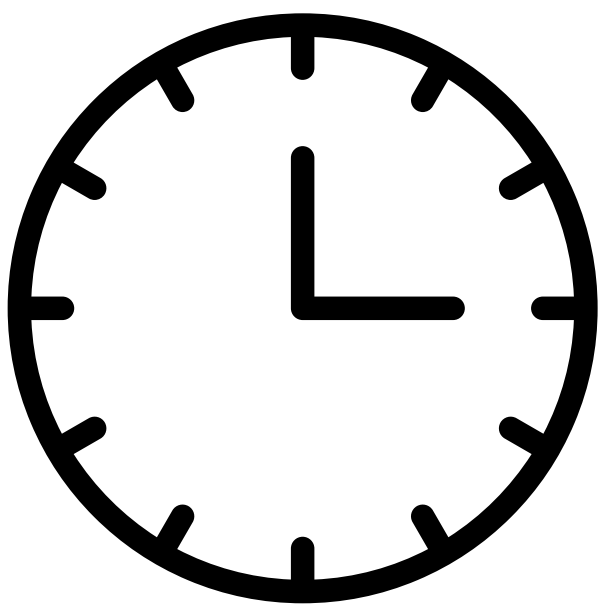

5. Important Safety Instructions

- Do not mix with any other chemical product.
- Keep the container closed after use.
- Store in a cool, dry area away from direct sunlight.
- Keep out of reach of unauthorized personnel.

4. Contact Time

Recommended contact time:

5–10 minutes
